ABOUT

Experienced and innovative Senior Front-end Developer with over 9 years of expertise in leveraging modern JavaScript frameworks and technologies to create high-performance websites, mobile apps, and interactive user experiences. Committed to driving business growth through responsive design, optimized performance, and user-centric development.

EXPERIENCE

Front End Developer | KoNext Technologies |
2024 - Present

TimeBee - Time Tracker web & Dashboard

Responsibility - I am a Team Lead for UI Development at Konext. I lead the web and dashboard design and front-end development for Timebee, a time-tracking platform similar to Hubstaff, and have been managing it for over a year.

Senior Front End Developer(remote) |

Brandwell.ai | 2023 - 2024 (31 Aug 2024)

Brandwell.ai - AI-Powered Content Creation

Responsibility - Converted Figma designs into the front end for the app admin using Vue 3 and Tailwind. Ensured all click paths and graphs were functional before passing the work to the backend team for API integration. Also developed and managed the website view in WordPress, including necessary edits and creating Advanced Custom Fields (ACF).

Senior Front End Developer | Devblends | 2022 - 2023

Pickyme - A platform for booking student accommodations in various cities.

Responsibility - Team Lead of Front end Team Led the front end team in creating the UI and front-end logic for Pickyme. Ensured the platform was optimized for both user and admin views, focusing on performance, speed, and cross-browser compatibility.

SKILLS

ACHIEVEMENTS

- Multiple-time Employee of the Month: Recognized for exceptional performance and contributions at Ashtex, Eyrox, and Devblends.

- Diverse Technology Adaptation: Successfully transitioned teams from PHP/JS to Laravel/Vue 3, showcasing versatility in technology stacks.

- Effective Hybrid/Remote Work: Demonstrated seamless productivity and collaboration in hybrid and remote work environments.

- Strong Professional Relationships: Maintained excellent working relationships and teamwork across diverse teams.

TAIMOOR ASIF

Front End Developer

EXPERIENCE

Front End Developer | Eyrox | 2020 – 2022

RSM – by Switchstance (mobile app)

Responsibility – Mobile App Interface Developer

Developed the front end and user interface for the RSM mobile app by Switchstance for both Android and iOS using Angular. The app is fast, fully optimized, and has been successfully uploaded to the app stores, garnering thousands of downloads.

Templaris – Help Over Debt-Free

Responsibility – Led the entire website development for Templaris, including UI design, development, and logic implementation. ensuring a cohesive and engaging user experience across all devices.

Front End Developer | Ashtex Solutions | 2017 – 2020

Lays – Lays Say It With A Smile

Responsibility – Led the front end development for a microsite aimed at spreading smiles across Pakistan and promoting Lays' new packaging. Created and optimized the front end for multiple platforms, including Facebook and Instagram.

MonetizeMore – Google Certified Publishing Partner

Responsibility – Developed UIs from Figma designs, ensuring all logic, interactions, and data-driven graphs functioned as intended.

Junior Front End Developer | Ashtex Solutions | 2015 – 2017

Ribbet – Online Photo Editor and Collage Creator

Responsibility – Developed the user interface for Ribbet, Designed responsive, user-friendly layouts and collaborated with backend team.
